

# BRANCH RE-OPENING GUIDE:

SIMPLE SOLUTIONS FOR CREATING  
A SAFER ENVIRONMENT

## A VISUAL SOLUTIONS GUIDE FOR:

- DISTANCING & SEPARATION
- SPACE CONFIGURATION & COMMUNICATION
- CLEANING & SANITATION

# BRANCH LOBBY

## DOOR HANDLES/SLEEVES/WRAPS

Self-cleaning door handle sleeves, handle wraps and adhesive push pads can be applied to some of the most frequently-touched surfaces.

## HEALTH-CONSCIOUS MARKETING CONTENT

Provide spacing or other behavior reminders, the latest updates or other health-conscious messaging to your patrons and staff, either digitally or through static images.

## ACRYLIC PARTITIONS

Partitions allow for visibility and conversation, while providing physical separation. An opening at the bottom enables cash and other bank instrument exchanges.

Where everyone belongs

## SPACE CONFIGURATION

Adjust your communal spaces to create 6 feet of separation between staff and patrons, or provide barriers when that cannot be achieved.

## SOCIAL DISTANCING FLOOR MARKERS

Adhesive floor markers provide visual guidance on the 6-ft distance recommendation in queuing areas.

## ADHESIVE SURFACE MATS

Self-cleaning adhesive mats can be customized and branded to provide a sanitary surface where people may touch or place items such as cash or other bank instruments.

## OVERLAY FILM FOR TOUCHSCREENS

Apply self-cleaning films that can be cut to size/shape to any touchscreen surface such as displays, tablets or monitors, printers/copiers or ATMs/ITMs.

## SANITATION STATIONS

Free-standing or wall-mounted units can hold an assortment of personal protective equipment, dispensers for hand sanitizer and/or sanitizing wipes.

# BACK OFFICE

## SPACE CONFIGURATION

Adjust your communal spaces to create 6 feet of separation between staff, or provide barriers when that cannot be achieved.

## HEALTH-CONSCIOUS MARKETING CONTENT

Provide spacing or other behavior reminders, the latest updates or other health-conscious messaging to your staff, either digitally or through static images.

## ACRYLIC PARTITIONS

Partitions allow for visibility and conversation, while providing physical separation.

## SANITATION STATIONS

Free-standing or wall-mounted units can hold an assortment of personal protective equipment, dispensers for hand sanitizer and/or sanitizing wipes.

## OVERLAY FILM FOR TOUCHSCREENS

Apply self-cleaning films that can be cut to size/shape to any touchscreen surface such as displays, tablets or monitors, printers/copiers or ATMs/ITMs.

## DOOR HANDLES/SLEEVES/WRAPS

Self-cleaning door handle sleeves, handle wraps and adhesive push pads can be applied to some of the most frequently-touched surfaces.

# DRIVE THROUGH

## ADHESIVE SURFACE MATS

Self-cleaning adhesive mats can be customized and branded to provide a sanitary surface where people may touch or place items such as cash or other bank instruments.

## OVERLAY FILM FOR TOUCHSCREENS

Apply self-cleaning films that can be cut to size/shape to any touchscreen surface such as displays, tablets or monitors, printers/copiers or ATMs/ITMs.

Self-cleaning door handle sleeves, handle wraps and adhesive push pads can be applied to some of the most frequently-touched surfaces.

## SANITATION STATIONS

Free-standing or wall-mounted units can hold an assortment of personal protective equipment, dispensers for hand sanitizer and/or sanitizing wipes.

## CANNISTER WRAP

Self-cleaning, opaque adhesive sheets can be cut to accommodate various sizes/shapes/objects, including drive-up pneumatic carriers.

## HEALTH-CONSCIOUS MARKETING CONTENT

Provide spacing or other behavior reminders, the latest updates or other health-conscious messaging to your patrons, either digitally or through static images.

# SOLUTIONS SUMMARY

## LA MACCHIA GROUP & VIVALOCITI SERVICES

### ACRYLIC PARTITIONS

Available in various sizes and configurations, these partitions allow for visibility and conversation to flow, while providing physical separation and a barrier for airborne particles. An opening at the bottom enables cash and other bank instrument exchanges. La Macchia Group can project manage/source these products for our customers if needed.

### SOCIAL DISTANCING FLOOR MARKERS

Adhesive floor markers provide guidance on the 6-ft distance recommendation. Markers can be customized to align to your brand. La Macchia Group can design and/or source these products for our customers if needed.

### HEALTH-CONSCIOUS MARKETING CONTENT

Provide spacing or other behavior reminders, the latest updates or other health-conscious messaging to your patrons and staff, either digitally or through static images. La Macchia Group can assist in the development or sourcing of messaging, signage or displays for our customers if needed.

### SPACE CONFIGURATION

Adjust your communal spaces to create 6 feet of separation between staff and patrons, or provide barriers when that cannot be achieved. La Macchia Group's design team is available for consult regarding ways lobby, breakroom, office or other communal spaces could be reconfigured with the latest distancing and safety recommendations in mind.

## SELF-HELP SOLUTIONS

### SANITATION STATIONS

Free-standing or wall-mounted units can hold an assortment of personal protective equipment (gloves/masks) and dispensers for hand sanitizer and/or sanitizing wipes and can be placed at various locations in your communal spaces.

### SELF-CLEANING SURFACES

NanoTouch Materials LLC brought the NanoSeptic line of self-cleaning products to market in 2016, leveraging patent-pending technology that utilizes light and mineral-based nano-crystals bonded to the surface of a substrate to create an oxidation reaction as a means of killing surface-laden organic contaminants. La Macchia Group is not a licensed distributor or building service contractor with NanoTouch.

### OVERLAY FILM FOR TOUCHSCREENS

NanoSeptic films can be cut to size/shape and use a low-tack adhesive backing to apply a near-clear film to any touchscreen surface such as displays, tablets or monitors, printers/copiers or ATMs/ITMs.

### ADHESIVE SURFACE MATS

NanoSeptic mats can be customized and branded to provide a self-cleaning surface where people may place items such as cash or other bank instruments to be exchanged, or otherwise touch/rest their hands or place personal items.

### DOOR HANDLES/SLEEVES/WRAPS

NanoSeptic door handle sleeves, handle wraps and push pads provide a self-cleaning cover for the most frequently touched areas, covering most, but not all, of the applicable surface.

### CANNISTER WRAP

NanoSeptic opaque adhesive sheets can be cut to accommodate various sizes/shapes/objects, including drive-up pneumatic carriers.

At La Macchia Group, we're committed to the success of our customers and the health of our communities. While the future may hold uncertainties, we firmly believe branch banking can adapt and emerge stronger than ever.

We aim to support you through these times and will continue to share ideas for what you can do to improve the health and safety of your facilities. We are also working on bringing you more advanced solutions, including installations and services for:

- Anti-microbial & sanitation solutions
  - Copper alloy surfaces
  - UV-based disinfecting systems
  - HVAC systems & air filtration
- Digital queuing
- Building automation
  - Touchless actuators
  - Motion sensors
- Thermal scanning
- Customer mapping & operations modifications
